- Coordinate with local schools and other summer programs.

## WHERE?

- Virtual
  - Facebook, Zoom, YouTube
- Hybrid
  - RSVP for headcount
- In Person
  - Open House style

## HOW?

- Ways to participate
  - Activities & Goals
- Methods
  - Web-based vs packets
- Prizes

5

# Which model should I choose? Things to consider

## State/municipal mandates

- Max number of people?

## Space in your building

- Can you maintain distance?
- Is there proper airflow
- Will this exceed any time restrictions you have already placed on your building?

## Outdoor options

- Ease of set up for outdoor programs?
- Weather plays a factor

## Patrons/community

- Are they comfortable meeting in person?
- Will they register? Or does a drop-in model work best for your library?

## Staff

- Will virtual or in person be unnecessary stress?
- Is my staff comfortable enough with technology to do a successful virtual option?

6

Suncatchers are so fun. I saw this one with wax paper and glue. You can switch it up with a paper plate border and contact paper of course. Has anyone ever tried the second one with just clear glue and gems? Does it melt when you put it in the window?

The Hayner Public Library District  
 August 7, 2020

Looking for something (free!) to do as a family this weekend? Check out the new Hayner Library StoryWalk® story that was just posted yesterday! This month's story is "Summer Days and Nights" by Wong Herbert Yee.

Hayner Library's StoryWalk® is an outdoor reading experience in which a children's book is deconstructed, the pages laminated, placed in weatherproof wooden story boards, and then arranged along a walking path. The StoryWalk® books, chosen by our children's librarians, are posted along The Frog Trail at The Nature Institute. The Nature Institute, located at 2213 South Lewis Lane, Godfrey, is a nonprofit land conservation and environmental education organization. The Frog Trail is approximately one mile in length and is located behind the Talahi Lodge. Visitors are encouraged to stop at the first storyboard and use a smartphone to scan the QR code, located at the bottom of the introduction page. Scanning the QR code will help the library keep track of participation in the program. [The Nature Institute](https://www.thenatureinstitute.org/)

We are celebrating Earth Day this spring by participating in the 12th Annual Neighborhood Forest "Free-tree" program. Since 2010, Neighborhood Forest has reached over 60,000 families and planted over 30,000 trees across North America.

To participate, register your child by March 21; the free 6-12 inch sapling will be ready to pick up from the library on or around Earth Day (April 22nd).

Planting instructions and species information will be emailed a few days prior to the ... See More

Recently, Dr. Sathya Chinnadurai, Director of Animal Health at the Saint Louis Zoo, performed annual exams on our two critically endangered Asian striped narrow-headed softshelled turtles (Chitra chitra). Both turtles are around 22 years old and weigh between 100 and 105 pounds each. Careful planning and communication were needed for the safety of the animals and the animal care team. A soft cargo net is used to cradle each turtle during the exam, with the staff adding a seco... See More
