

# Online with the CMC: Parts, Volumes, and Issues: Exploring Serials Cataloging

*Dr. Pamela Thomas, Bibliographic Grant Manager, IHLS/CMC*

Feb. 22, 2024

# What is a continuing resource/serial?

“A continuing resource is a publication in any physical or electronic format that is intended to be issued with no set ending, and generally carries numbering, dates or both. Serials and integrating resources are types of continuing resources. Serials are issued in separate parts, while integrating resources do not have separate issues. One of the main criteria that differentiate continuing resources from monographic resources is the publisher's intention,” ALCTS, now ALA Core.

# Agenda

- Magazines
- Newsletters
- Newspapers
- Annuals (reports, yearbooks, or directories)
- Journals
- Periodicals
- Memoirs
- Proceedings
- Series (Books)

# Issues

- Sometimes issues of serials/continuing resources are cataloged as a standalone (usually a monograph)
- I will not be covering how to check in issues of periodicals/serials/continuing resources, since each ILS has a different procedure

# Magazines

- SrTp, code *g*
- Periodical addressing non-scientific, non-professional general interest topics. Magazines can be print or digital. If less granularity is needed, code *p* can be used.

500		"America's only rock 'n' roll magazine."
500		From Wikipedia, viewed February 8, 2023: "[The] main print run lasted from 1969 to 1989. It was first published in March 1969 by Barry Kramer and founding editor Tony Reay. Influential critic Lester Bangs served as the magazine's editor from 1971 to 1976. It suspended production in 1989 but attained a short-lived renaissance in the early 1990s as a tabloid. In June 2022, Creem was relaunched as a digital archive, website, weekly newsletter, and quarterly print edition."

# Annuals

- SrTp code, Reports, blank; Yearbooks, blank, Directory (†)
- Directory: Itemized listing of information for the identification or location of persons, objects, organizations, or places, arranged alphabetically, chronologically, or in some other systematic order, and updated over time. Directories can be print or digital. If less granularity is needed for a digital directory, code *w* can be used.

520			Launched in 1900 by The New York Botanical Garden (NYBG), and with 120 volumes published as of 2019, Memoirs has traditionally focused on taxonomy and floristics, with an emphasis on plants of the Western Hemisphere. Most titles comprised a single volume, but quite a few were multi-volume titles and constitute some of the most iconic and substantial monographic publications of NYBG. In recent years, the Memoirs series has expanded to encompass field guides and botanical history as well. All in-print volumes of Memoirs through volume 120 are available exclusively through NYBG Shop. Volumes 121 and going forward are available exclusively through Springer.

500 "STI/PUB/1940"--Title page verso.

520 "A plant life management (PLiM) programme is an effective tool that allows an operator to manage ageing effects in structures, systems and components (SSCs) for long term operation of nuclear power plants. Such a programme helps facilitate decisions concerning when and how to repair, replace or modify SSCs in an economically optimized way, while assuring that the highest levels of safety are maintained. This publication is the proceedings of the fourth in a series of international conferences convened by the IAEA on nuclear power plant life management. The conference provided a forum for information exchange on national and international policies, as well as on regulatory practices, and for the demonstration of strategies, including their application in ageing management and PLiM programmes for operating and new nuclear power plants. The proceedings include the opening address, presentations of the keynote speakers, summaries of the individual technical sessions, and conclusions and recommendations of the chairperson of the conference."--Publisher's description.

500 "The IAEA has periodically organized International Conferences on Nuclear Power Plant Life Management (PLiM), with the previous three being held in November 2002 in Budapest, Hungary, in October 2007 in Shanghai, China and in May 2012 in Salt Lake City, USA. This year's conference was held from 23-27 October 2017 in Lyon, France and was significantly larger than the previous three in terms of participation."--Page 1.

520			It was the sort of mission Batman had run a thousand times. From high above the sweltering summer streets of Gotham, Batman would escort the GCPD as the dangerous metahuman supervillain known as E.M.P. was transferred from a temporary holding cell to his permanent home at Blackgate Prison in Gotham Harbor. E.M.P.'s electrical powers posed a dangerous threat, but the situation was well in hand. Until it wasn't. Now every light in Gotham is out, the police have been knocked into disarray, and a broken, bleeding Batman must fight his way to Blackgate, block by block, dragging E.M.P. behind him. But it's not just the gangs who want to make life difficult for him. The dark corners of Gotham contain many surprises...and E.M.P. has many more shocks to deliver before the night is through! One of the most iconic Batman artists of the 21st century, the incomparable Jock (The Batman Who Laughs, Batman: The Black Mirror), has focused all his storytelling powers on the tale of one very, very dark night in Gotham City. It's always darkest before the dawn-if it ever comes... Collects Batman: One Dark Knight #1-3.
