Library of Congress Subject Headings

Library of Congress Subject Headings (LCSH) has been actively maintained since 1898 to catalog materials held at the Library of Congress. By virtue of cooperative cataloging other libraries around the United States also use LCSH to provide subject access to their collections. In addition LCSH is used internationally, often in translation. LCSH in this service includes all Library of Congress Subject Headings, free-floating subdivisions (topical and form), Genre/Form headings, Children's (AC) headings, and validation strings* for which authority records have been created. The content includes a few name headings (personal and corporate), such as William Shakespeare, Jesus Christ, and Harvard University, and geographic headings that are added to LCSH as they are needed to establish subdivisions, provide a pattern for subdivision practice, or provide reference structure for other terms. This content is expanded beyond the print issue of LCSH (the "red books") with inclusion of validation strings. *Validation strings: Some authority records are for headings that have been built by adding subdivisions. These records are the result of an ongoing project to programmatically create authority records for valid subject strings from subject heading strings found in bibliographic records. The authority records for these subject strings were created so the entire string could be machine-validated. The strings do not have broader, narrower, or related terms.

Search authorities

Library of Congress Authorities provides around 500,000 authority records for subject headings and genre/form terms, as well as over 11 million name authority records for persons, organizations, places, and meetings/conferences. Also included are bibliographic headings pulled from the Library of Congress Catalog as additional references to support the work of catalogers. *Library of Congress Authorities* is a free service allowing users to browse, view and download authority headings in MARC format for use in a local library system.

Library of Congress Authority Headings included in this service derive from the thesauri of *Library of Congress Subject Authority Headings*, *Library of Congress Name Authorities*, *Children's and Young Adults' Cataloging Program*, and the *Library of Congress Genre/Form Terms*.
